Respect

Responsibility

Excellence

Welcome to the Week 5 Newsletter.

### Principal Away for 2 Weeks.

Unfortunately I will be away for two weeks as I require knee surgery. This will mean that Lillian Murphy will step up into the principal role, and Kirsty Richards will take the deputy role for the 2 weeks. I am very confident that both staff members will fulfil the roles exceptionally well.

### Pre Service Teachers.

We have a huge number of pre service teachers working across our school. These students are 1<sup>st</sup> year students from the University of South Australia. Elizabeth East primary school has an agreement with the university to support preservice teachers during their practicums each year. I would like to welcome the university students to our school and thank them for the work they are doing in our classrooms. I would also like to thank Lillian Murphy for the time and effort she puts in to support the students in their first practicum.

### Student Disco.

The school is running the annual student disco. This will take place in the school hall on Thursday 7<sup>th</sup> June. 6:00pm till 8:00. The disco will be staffed by teachers and SSO's from the school and the tunes will be delivered from a professional DJ. This event is always well attended and a great couple of hours for the students. Cost is \$4 per child or \$8 for a family. The disco is only open to students from the school.

### SAPSASA Netball and Soccer

Last week a number of our students attended SAPSASA Netball and Soccer carnivals. These events were well attended by our students will all that went enjoying the participation aspect. Behaviour from our students was very good with all that went displaying good team skills and a positive attitude to the other sides. Congratulations to Greg for working overtime to organise buses, consent forms and even roping in a family member to help with umpiring.

*Matt Delany*

Principal

Elizabeth East Primary School

# STEM

STEM (aboriginal student congress) it stands for Science, Technology, Engineering and Maths.

This is an event that is held every single year.

This year Jerome from Rm 14/15 and I went to this congress.

Increasingly, the movement in Australia and globally is shifting towards STEAM integrating STEM with the Arts, including art and design, the humanities and entrepreneurship and embedding the 'real world' into learning.

This year's STEM Education Conference will explore this theme and feature hands on workshops, panels and presentations from inspiring educators, leading researchers, as well as industry and education change makers.

# WHOLE SCHOOL DISCO

Thursday 7th June 2018

School Hall

6.00 pm — 8.00 pm

\$4.00 per child—\$8.00 per family

## SAPSASA

## Netball & Soccer Carnivals

Last week some of our children participated in our first SAPSASA event for the year. We took 7 boys to a netball carnival and 14 girls to a soccer carnival. Our boys did an amazing job as for the majority of them, it was their first time playing netball. They drew their first game and then came up against a couple of schools who had a bit more experience than us and went down in the next three games. Although they lost those games, they kept their heads up and kept trying. Their last game, they were winning for most of the game and then the other team scored a goal in last couple of minutes to tie it. They thoroughly enjoyed themselves and learnt lots about a new sport.

Our girls played soccer and started off with 2 great wins. They then came up against another school who played extremely well and unfortunately lost the game. They came back in their last game with another great win.

All of the children had a great time and represented our school with pride.

**Greg Frost — H. & P.E. Teacher**
