Welcome to the Term 1 Week 10 Newsletter

April 3 2020

Week 10 was our last week of term 1. This term has had more challenges than most but the staff, students and community have really done remarkably well at Elizabeth East Primary School.

We have had most of the students accessing learning from home the last two weeks. Teaching staff have been creating learning packs which students have been completing at home. The students that remained on site were treated to combined classes.

This allowed them to work with students and teachers from other classes.

Next week staff are working on how to implement online learning for students. There will still be the paper version available, but in an attempt to make the learning more authentic, an online component will be added to the options. We all agree though that the best learning option is face to face, at school every day.

These are complex times. We are all trying to navigate through these times the best we can while keeping student learning at the centre of our thinking. We look forward to your support as we learn new technology and ways of teaching students both on site and learning from home.

Please find our Facebook page and 'Like' it to stay up-to-date. We will maintain the use of class Dojo and our website to communicate, but as Facebook is instant, we will use the page to update every one of any changes during the week 11 break and the two week holidays.

Please stay safe. Enjoy the time with your young people. We will see those students who are attending school on Monday the 27th April.

Matthew Delany

Principal

**To all the healthcare
workers on the
front lines of the
coronavirus pandemic:**

THANK YOU!

THANK YOU

Our nation is grateful to **essential retail workers** who are helping ensure our communities can access food and essential goods during this emergency.
